

SAVOURY PRODUCT STORAGE & HEATING INSTRUCTIONS

STORAGE

When you receive your order you should immediately open and either refrigerate or freeze the products. Only refrigerate if they will all be consumed within 24 hours. If storage will be for longer than 24 hours, products must be frozen.

DEFROSTING

The best way to defrost your savouries from frozen is in a refrigerator overnight.

Once defrosted, keep in the refrigerator and use within 24 hours.

REHEATING

This can be done in 2 ways:

Method 1

Microwave each item for approx 1 min (until piping hot)
Then immediately place into a pre-heated oven (180C) for approx
10 mins
Then eat!

Method 2

Place product into a pre-heated oven (180C) for approx 20 - 25 mins
until piping hot throughout
Then eat!

PACKAGING

The insulated packing and cardboard box are fully recyclable with your paper waste.
The cooling blocks can be refrozen and reused as many times as you wish.
